| 1. This opinion contains indications relating t | o the following iten | ns: | | | |
| Box No. I Basis of the opinion | | | | | |
| Box No. II Priority | Priority | | | | |
| Box No. III Non-establishme | Non-establishment of opinion with regard to novelty, inventive step and industrial applicability | | | | |
| Box No. IV Lack of unity of | Lack of unity of invention | | | | |
| Box No. V Reasoned statem applicability; cite | | | | | |
| | Certain documents cited | | | | |
| Box No. VII Certain defects in | Certain defects in the international application | | | | |
| Box No. VIII Certain observati | | | | | |
| 2. FURTHER ACTION If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1 bis(b) that written opinions of this International Searching Authority will not be so considered. If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later. | | | | | |
| For further options, see Form PCT/ISA/220. | | | | | |

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

| International application No. | |
|-------------------------------|--|
| PCT/US04/30669 | |

| Box No | n. I Basis of this opinion | | | |
|---|--|--|--|--|
| | | | | |
| 1. With a | regard to the language, this opinion has been established on the basis of: | | | |
| Ø | the international application in the language in which it was filed | | | |
| | a translation of the international application into, which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)). | | | |
| 2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of: | | | | |
| a. | type of material | | | |
| | a sequence listing | | | |
| | table(s) related to the sequence listing | | | |
| b. | format of material | | | |
| | on paper | | | |
| | in electronic form | | | |
| c. | time of filing/furnishing | | | |
| | contained in the international application as filed. | | | |
| | filed together with the international application in electronic form. | | | |
| | furnished subsequently to this Authority for the purposes of search. | | | |
| 3. 🔲 | In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished. | | | |
| 4. Add | ditional comments: | | | |

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US04/30669

| Box No. V Reasoned statement under Rule 43 bis. 1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement | | | | | |
|--|--|---|--|--|--|
| 1. Statement | | | | | |
| Novelty (N) | Claims 1-11 | YES | | | |
| Novely (11) | Claims NONE | 110 | | | |
| | Oleima NONE | YES | | | |
| Inventive step (IS) | Claims NONE Claims 1-11 | NO | | | |
| | | | | | |
| Industrial applicability (IA) | Claims 1-11 | 210 | | | |
| | Claims NONE | NO | | | |
| Claims 1-11 lack an inventive step under PCT Artic (US 5,491,969). Kikkawa et al disclose applicants' energy from a starter motor/generator with a freque and using the motor generator to supplement the enexception of returning electricity to the electrical grashow these feature to be old in the compressor/turbitime of applicants' invention from the teaching of Celectricity to start the system with energy being returned to the generator. In regard to claims 3,4,10 and 11, the frequency converter art and as such would have Claims 1-11 meet the criteria set out in PCT Article can be made or used in industry. | basic inventive concept, a natural gas inductying and incy converter to increase the frequency during a ergy derived from the turbine if necessary, subside and showing the generator between the compine/generator art. It would have been obvious to cohe et all to modify the liquefying/generating symmed to the grid when possible to use available generator between the compressor and the turbit is noted that pulse width modulation and module been obvious to an ordinary practitioner in the | start-up (see lines 1-27 of column 6) tantially as claimed with the pressor and the turbine. Cohn et also one of ordinary skill in the art at the stem of Kikkawa et al by using grid energy for start-up and to supply the pine to ensure proper energy transfer dular construction are well known in art. | | | |
